PERSONAL PROJECTS

Aashiyana - Hotel Rental App (12/2023 - 02/2024)

- Aashiyana is a modern property rental solution that simplifies the booking process with its intuitive features. With multi-user authentication, customer reviews, and Spring Security integration, it ensures security and trust.
- Customers can effortlessly book properties, while hotels manage their listings seamlessly.
- Admins have complete oversight through a user-friendly dashboard.
- Aashiyana offers a seamless and reliable property booking experience.[tim](https://github.com/74604Aditya/AASHIYANA-)
- <https://github.com/74604Aditya/AASHIYANA->
- Technology Used : React JS, Spring Boot MVC, DB-MySQL

Transport Tracking App [React JS] (11/2023 - 12/2023)

- The Transport Tracking System is a web-based application developed using React JS for the frontend and MongoDB and My SQL for the backend.
- This system aims to streamline and optimize the tracking and management of transportation services.
- [https://github.com/74604Aditya/Transport-Tracking-System-. git](https://github.com/74604Aditya/Transport-Tracking-System-.git)
- Technology Used : HTML, CSS, Javascript, Node JS, DB-MySQL, MongoDB

INTERNSHIPS

OASIS INFOBYTE(Web Development and Designing) (04/2022 - 05/2022)

Developed landing page of website, Developed personal portfolio website

CERTIFICATES

CDAC (09/2023 - 02/2024)

The **CDAC Full Stack Developer Certificate** equips students with the skills required to develop both frontend and backend components of modern web applications.
