Aditya Lande
Associate Software Engineer

Full-stack developer skilled in Java Spring Boot, MySQL, and React.js.
Experienced in building web applications from scratch, handling both front-end and back-end development, authentication, and database management.

EXPERIENCE

DREAMCARE DEVELOPERS PVT. LTD.
(Associate Software Engineer)
03/2024 – PRESENT, PUNE
Achievements/Tasks

- Develop and maintain web applications using **Java Spring Boot** for backend and **React.js** for frontend.
- Design and manage relational databases using **MySQL**, ensuring efficient data storage and retrieval.
- Implement **authentication and authorization** mechanisms for secure user access.
- Handle **API development and integration** to connect frontend with back-end services.
- Ensure **responsive and user-friendly UI** for a seamless experience across devices.
- Work on **debugging and performance optimization** to enhance application efficiency.
- Collaborate with teams to develop and deploy full-stack solutions from scratch.

SKILLS

Software Development	MVC	React JS	Problem Analysis	Spring Boot
Web Development	Design Pattern	Azure	Git Hub	SQL Server
Authentication	Data Structure	Algorithm	Java	Python
Application Programming	Node JS	HTML	CSS	JavaScript

PERSONAL PROJECTS

➢ **Aashiyana - Hotel Rental App**
   (12/2023 - 02/2024)

- Aashiyana is a modern property rental solution that simplies the booking process with its intuitive features.
- With multi-user authentication, customer reviews, and Spring Security integration, it ensures security and trust.
- Customers can effortlessly book properties, while hotels manage their listings seamlessly.
- Admins have complete oversight through a user-friendly dashboard.
- Aashiyana offers a seamless and reliable property booking experience.

https://github.com/74604Aditya/AASHIYANA

Technology Used: React JS, Spring Boot MVC, MySQL

- ➢ **Transport Tracking App [React JS]**
  (11/2023 - 12/2023)
    - The Transport Tracking System is a web-based application developed using React JS for the frontend and MongoDB and My SQL for the backend.
    - This system aims to streamline and optimize the tracking and management of transportation services.

    Technology Used: HTML, CSS, JavaScript, NodeJS, MySQL, Mongo DB

EDUCATION

- **PG-Diploma in Advanced Computing[CDAC-Mumbai]**
  09/2023 - 02/2024, *Mumbai*
    - Full-Stack Developer Programming Languages
    - Web Development Database Management
    - Project-Based Learning

- **Bachelor of Engineering [Computer Science]**
  Smt. Kashibai Navale College of Engineering, Pune [SPPU]
  08/2018 - 06/2023, *Pune*
    - Achieved First Class with Distinction (7.97 CGPA).
    - Key Subjects: Data Structures, Algorithms, Database Management, Computer Networks, and Software Engineering.
    - Participated actively in technical and cultural events, securing accolades in coding competitions.

INTERNSHIPS

OASIS INFOBYTE
Web Development and Designing
(04/2022 - 05/2022)
- Developed landing page of website
- Developed personal portfolio website

CERTIFICATES

CDAC
(09/2023 - 02/2024)
*The **CDAC Full Stack Developer Certificate** equips students with the skills required to develop both frontend and backend components of modern web applications.*
